DENTAL SURGEON
In Champion Thursday
Fridays and Saturdays.

Local & General

Miss Florence Ulrich was a
Calgary visitor last week.

Miss Mary Cook spent the
week end in Vulcan visiting
friends there.

Mrs. Bastin and family were
Lethbridge visitors Saturday.

Mr. and Mrs. John Obihelser
and Ray and Johnnie Weiss
were Calgary visitors Thursday
of last week.

Clayton Crane left Saturday
for Logan, Utah where he will
attend University.

Mr. and Mrs. Stephen Fath
were Calgary visitors over the
week end.

August Siegel and Steve
Fath were business visitors at
Croston, B. C. last week.

John Long had the mis-
fortune to injure his foot quite
severely while moving a rack.

Mrs. Chappen of Calgary is a
guest at the home of Mr. and
Mrs. James Ellis.

W. H. Duman was a Cal-
gary visitor last week.

Mrs. Berger, Mr. and Mrs. E.
Granlin and L. Granlin were
Lethbridge visitors last week.

W. Johnson and V. S. Jopling
of Calgary were business visi-
tors in town last week.

Miss Marjorie McCullough
entertained a number of her
friends at dinner last week.

Mrs. Collins and Mrs. Orr
were Lethbridge visitors on
Saturday.

Mr. and Mrs. J. Ellis who
have spent the past two months
visiting in Scotland returned to
their home Saturday.

Mrs. V. S. Jopling and Betty
Lou of Calgary are Champion
visitors this week.

J. Deporter has been trans-
ferred to the main branch of
the Canadian Bank of Com-
merce, Lethbridge and left
recently to resume his position
there.

Miss Walborg Ulfsten left
this week for Calgary where
she will attend Crescent
Heights High School complet-
ing her Grade XII there.

Mark Diemert spent a few days
at the home of Mr. and Mrs.
Hugh Frame of Brant this week.

Mr. and Mrs. C. Davis were among
those who attended the funeral of
the late Mrs. C. Hyndman.

The weather, after several uncertain
days, seems to have settled down and
the remainder of the threshing is now
under way.

John Hunzger was operated on
Saturday for appendicitis and is
reported to be making satisfactory
progress.

Mrs. Wm. Fields returned to Cham-
pion on Monday, having spent
the past month visiting in Calgary.

Mr. and Mrs. A. Long of Tabas
spent the week end visiting at the
home of Mr. and Mrs. H. Lamont.

Among the boys who left last
week for threshing at Acme
are Miles and Bernice Pharis,
Leonard Bach, Norman Hagg,
Vergil Stout, Russell Stone and
Stanley Fath.

Ed. Fisher is now connected
with the Dominion Life As-
surance Co. and will operate in
this vicinity for the time being

Just arrived. Pure apple
cider. By the glass, quart or
gallon at Campbell's.

LOST—Red woolen coat, size
3 years, at Campbell's store or
on road east to Snake Valley.
Return to Campbell's and get
reward of \$2.00. This coat was
a Xmas gift for a little girl.
Signed G. M. Campbell.

Women's Institute

The Constituency Conference
of Alberta Women's Institutes
held in Brant on Tuesday, Sept.
27th, recorded the largest at-
tendance in recent years.
There were no less than five
Provincial officers on the plat-
form besides the Chairman and
Secretary. Interesting and en-
couraging reports and addresses
were an inspiration to all
present. The principal speak-
ers were Mrs. H. J. Mont-
gomery, President, A. W. I.,
Mrs. J. A. Campbell, District
Director, Mrs. J. N. Beaulier,
Recording Secretary, A. W. I.
and Mrs. A. T. Martin, Con-
stituency Convener. Those at-
tending from the Champion
branch included Mrs. J. N.
Beaulier, Mrs. R. I. Baker, Mrs.
F. C. Alcock, Mrs. J. H. Bastin,
Mrs. D. Chamberlin and Mrs.
Peter Dawson.

Obituary

Funeral services for Mrs.
Orpha Maud Hyndman, 1512
Seventh street west, were
conducted Wednesday after-
noon at 2 o'clock from the
Shaver funeral home, Rev. J.
McNeill officiating. Interment
was made in the Burnside
cemetery.

Mrs. Hyndman died Sunday
afternoon in a local hospital
following a lengthy illness.
She was 42 years of age. Mrs.
Hyndman is survived by her
husband, O. H. Hyndman; two
daughters, Ileen and Maves, at
home; three sons, Hillard, Rae
and Mack, at home; six sisters
in eastern Canada, and two
brothers in the west.

The many friends of the
Hyndman family in this district
will join the Chronicle in ex-
tending their sympathy to the
bereaved family.

Field Day

The stage is all set for the Third
Annual Field Meet on Saturday, Oct.
1st. Entries from eight rural schools
and five rooms in town have been
received. Keener competition is ex-
pected in an event as the students
are better trained each year.

The program of events will com-
mence at one o'clock and should be
completed by five p.m. after which
the ribbon awards will be given out.
During the afternoon the High School
will cause by serving a light lunch.

Special prizes donated by Farmer's
Hardware and Moffatt's Hardware
will be awarded to the boy and girl
winning the greatest number of points
in class A, B and C.

Sale Opens

Sat. Morning

C. D. Woodlock the Sales
Wizard from Winnipeg, Cal-
gary and Vancouver is again
in this district conducting a gi-
gantic sale for our friends Mc-
Cullough Bros. Believe it folks
he is doing a real job of it.

Success Crowns Efforts Made To Save Antelope Herds In Their Native Habitat

Canada's success in bringing back the buffalo has been accompanied by wild life conservationists in many parts of the world, but little has been said of her successful efforts in saving the prong-horned antelope in its native habitat in Western Canada. The march of settlement in the West made disastrous inroads on the numbers of these timid animals and when their condition was brought to the attention of the Dominion Government immediate action was taken through the Department of the Interior to establish reserves for their protection and propagation. In 1914 the first sanctuary to be established was that to be later known as Watkins Park, an area of 54 square miles in southern Alberta about 75 miles east of Lethbridge. Early in 1915, an area later to be known as Nemiskian National Park, about 25 miles north of Medicine Hat, Alberta, was set aside for the protection of antelope in that district and since then the success of the Department's efforts has been most remarkable.

The main work in the conservation of the antelope is taking place at Nemiskian Park since the area of eight and a half square miles comprising the sanctuary is fenced and a definite record of the progress of the work can be kept. The herd of approximately 425 antelope in this park represents the results of an interesting experiment. Previous to 1915 efforts at raising antelope in captivity had been unsuccessful owing to the effects of the shock of capture. Consequently officers of the National Parks Branch of the Department of the Interior, in charge of the work, but upon the scheme of corralling a herd of antelope on a suitable grazing area. A herd of forty-two animals were observed feeding north of Medicine Hat, and the work of fencing the animals in without disturbing them was successfully carried out. Since then they have thriven exceedingly and the success of their captivity and these graceful native animals are rapidly being restored in numbers.

At Watkins National Park, as far as observations of those in charge of the park show, the antelope which frequent this unfenced reserve are increasing. Concentrations of these animals are noticeably greater throughout the area than previous to the establishment of the park, and their future in this part of the province appears assured.

Higher Wheat Price Needed

Would Do More Than Anything Else To Bring West Back

However, taking Western Canada as a whole this will not be a debt-paying year. Most farmers will be able to meet their current bills and their taxes and to provide for seed and feed. The more fortunate ones will also have enough to pay the current mortgage interest. The crop is big enough to make only few cents advance in price important. Westerners are not looking for higher prices, so far as the crop is concerned, but they are praying for them nevertheless. No single factor could do more to bring back the West than a rise in the price of wheat. Nothing else can do the job alone—Financial Post.

Money In Pie Business

The pie business has been good in Chicago to George Kemper, 72. He was peddling individual pies when Policeman John Frye asked him about his license. "I can't afford to waste money on licenses, so I don't," the policeman searched him to see just how poor he was. In a pocket of his trousers there was \$7.56.

Miss Margaret Jones, aged 85, has just resigned as bell ringer at the Llandaff-Aberthaw, Wales, church.

Quite a smart dairy outfit is obtained by the pieated ruffing trim. Style No. 682 is designed for sizes 10, 12 and 14. It is made of quires 24, yards of 39-inch material with 2 yards of plating.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coil carefully.

Wealth From The Land

Increase In Revenue From Alberta's Farm Products Is Expected

Several million dollar increase in revenue from Alberta farm products is expected in 1932, compared with 1931 figures, according to financial men.

The 1932 revenue is expected to exceed \$152,000,000 compared with \$147,000,000 in 1931. Alberta's farm animal production for 1932 will total \$14,000,000 it is estimated. The dairy industry is estimated to realize \$12,000,000, while poultry and poultry products may reach \$6,000,000. Miscellaneous commodities, it is believed, will return \$300,000.

These figures, added to \$116,000,000 set as the value of this year's dead crops, result in the estimated \$152,000,000 total.

This does not allow for probable increases in market prices. If any improvement in prices occurs the total will be much larger, it is pointed out.

Reducing Temperature

Offices Cooled As Well As Heated By Steam

A system for cooling business offices by steam has been tried with success in Detroit. Steam under high pressure is passed through a nozzle at high velocity where it acts as a pump to remove the air and vapor from a tank of water. This produces a vacuum which draws the water rapidly, and the water is then pumped through cooling coils to reduce the temperature in the rooms. Modern science has thus destroyed another illusion, that janitors only work in the winter months.

(By Ruth Rogers)

ASSISTANT (to Beach Inspector): "What are we to do about that one down there, sir? She's wearing a bit of costume and then wait a bit before the next bit."—London Opinion, Eng. and.

Mid Winter Predicted

Creo Indians Say There Will Be Lots Of Snow

Western Canada can prepare for a mild winter with plenty of snow. A late rain and an early spring will cut down the winter far below its usual length. That's the decision of the official weather man of the Creo Indians at The Pas, Man.

Year after year the Indians have been calling the turn on the weather and always correctly. The uncanny skill of the aborigines in forecasting the weather for the coming season is highly respected in the north country. To gain their information they closely observe the actions of muskrats and other animals at this time of the year.

Paris Fighting Aste

Paris is fighting its third invasion of pests. First a swarm of mosquitoes visited the French capital. Then followed a plague of blue flies. This time it is ants. The health department has marshalled all its forces, armed with sprays, disinfectants and other paraphernalia, and is directing an onslaught on the invaders. A number of bakeries near the boulevards and other buildings in other parts of the city have been overrun by the busy insects.

About nine per cent. of the forest fires are due to railroads, it is said.

China has decided to participate in the Chicago exposition next year.

Exports Of Home Grown Wool Have Developed Rapidly During The Past Few Years

Plymouth Rocks Sent To Arctic Outpost

Alkiviak Residents Look Forward To Having Fresh Eggs

No longer will residents at Alkiviak, one of the last outposts in the western Arctic, sigh for nice fresh eggs. Alkiviak, which is more than 1,500 miles north of Edmonton and up in the Arctic circle, has had its population increased by thirteen pullets and two roosters, and the residents will have fresh eggs—that is if the hens continue to lay.

G. M. Cornie, provincial poultry commissioner, shipped the feathered flock to Stromberg, described as a "poultry fancier of Alkiviak." Alkiviak has no chickens at the present time, it is stated.

The chickens travelled by train to McMurray and then by boat to Alkiviak. They are pure-bred-to-day barred Plymouth Rocks and are five-and-a-half months' old pullets.

The hens are in good condition to face the long winter darkness of the north. On the trip north they were fed a special laying mash and whole grain to keep them laying until they arrived.

In announcing the trip by the children, the poultry branch remarks that civilization is going north. In this connection it might be recalled that a team of horses went as far north as Arctic Red River by boat last year to do various pieces of work around different parts. At Arctic Red River children who had never seen horses gaped open-mouthed at them and called them "big dogs."

Imagine The Rest

The short-stemmed golfers had reached a stage of the game when desperate measures were necessary. Taking a tall tee he smote savagely and instantly searched the heavens for the ball. "Where did that one go to, caddy?" he asked in accents of great hope. "A couple of feet over your ear, sir," answered the boy gloomily.

Irish Parent—"Didn't I see you kids

my daughter, sir?"

Nervy Youth—"How should I know? Do you think I'd be gawking around when I was doing a thing like that?"

HUNTING IN CANADA

WIDE VARIETY OF BIG AND SMALL GAME EASILY REACHED

SEASONS OF GENEROUS LENGTH

Hunting Grounds Easy Of Access Accessibility is an outstanding feature of much of Canada's hunting territory. The country is well served by roads, railways, and steamship lines, over which the sportsman may travel in comfort, to the "going in" point. Areas previously inaccessible may also now be reached by airplane in a few hours' flight. Increasingly "going in" points are numerous throughout game areas and at these will be found reliable outfitters and guided guides, who are prepared to look after the sportsman's every need and guidance while in the hunting territories. In several of the provinces it is compulsory for the hunter to be accompanied by a guide, but even in those provinces where it is not compulsory, it is often advisable to employ a guide. Men, being familiar with the territory in which they operate, are able to add greatly to the enjoyment and success of the trip.

Conservation Of Game

In Canada a practical form of conservation is found in the setting aside of tracts of public lands, as game reserves, and in the right protection of game in its extensive national and provincial parks. In these areas the game multiplies rapidly under protection, and spreads over into the surrounding country. This favourable condition, coupled with some protective legislation regulating the open seasons, bag limits, issuing of licenses, and assurance of continuity of a supply of game animals and birds in their native habitat, Canada is thus able to offer the hunter exceptional opportunities for sport in season.

Hunting With Camera

To the camera-hunter and the student of wild life, the Canadian Provinces offer unusual opportunities for interesting experiences and records. There is no closed season on game in the camera-hunter and, throughout the year, he will find favourable conditions to study the habits of game animals and birds and to photograph them in their natural surroundings.

Game Laws Of The Province

The game laws of the different provinces are drafted by the provincial governments with a view to meeting local conditions; consequently there is no uniform game law for the Dominion as a whole. As these game laws are subject to revision from year to year, persons contemplating a hunting trip are advised to obtain copies of the current game laws and regulations of the province in which they intend to hunt.

National Development Bureau

The National Development Bureau of the Department of the Interior at Ottawa will gladly supply information on hunting in Canada, by either communicating with requests, or referring same to other sources from whom particulars desired may be obtained.

Canadian exports of home-grown wool have developed rapidly since the war. They now amount to a yearly average of 7,000,000 lbs.—about 40 per cent. of the whole Canadian production—as compared with only a million pounds per annum in pre-war days.

Prior to 1931, the bulk was taken by the United States, but last year the United Kingdom took the major part of Canada's wool exports.

These facts are revealed in a new report on the production of, and trade in, wool issued by the Empire Marketing Board: "Wool Survey. A Summary of Production and Trade in the Empire and Foreign Countries."

Nearly one-half of the world's raw wool, and over two-thirds of the wool which is produced in the British Empire, the world's sheep population is estimated at nearly 800 million head, of which about one-third are in the Empire. They produce between 3,500 and 4,000 million lbs. of wool per annum, and of this amount about 1,500 million lbs. is the best quality wool in the world comes from the British dominions of Australia, the Union of South Africa and New Zealand.

Among other producing areas, consisting of South America, the United States of America and Russia, only South America and Russia produce almost entirely raw wool. The United States of America is largely self-sufficient as regards merino and cross-bred wools, but imports carpet wools. Russia produces almost entirely carpet wools, and imports both the finer wools and wools of the carpet type. Neither of these countries seems likely to assume any importance in the near future as an exporter of raw wool.

In reviewing the development of the sheep population, the wool production and the wool trade of each of the principal countries concerned, with the course of raw wool prices over the past 40 years, the survey reaches the following conclusions:

There has been no exceptional increase in the sheep population or the wool production of the world in recent years; indeed, between 1928 and 1930 there appeared to have been a small increase in wool production, and although the year 1931, according to the partial estimates at present available, probably witnessed an increase in production over 1930, it is not anticipated that the record level of 1928 will be appreciably exceeded. British Empire countries have maintained their share of the world's sheep population at about one-third, and their share of the world's production of raw wool at about one-half.

In the export trade, in which the share of Empire countries is over two-thirds of the world total, there has been, on the whole, little variation since 1926 in the consignment of raw wool from the producing to manufacturing countries, and there would appear to be no abnormally large accumulation of stocks of new wool in the principal exporting countries. At the end of the 1930-31 season, when stocks in certain of the principal producing areas were higher than usual, they still formed only a very small part of the aggregate annual production. No large stocks have been allowed to accumulate through efforts to maintain prices, and proposals to restrict the sales or stabilize the prices of raw wool have been vigorously opposed.

Are Specially Kept

Units of weight and measures are kept, as well as original and duplicate of every tenth year. The standard measure, made in bronze, and the standard pound and kilogram weights of platinum are kept housed in the masonry of the Houses of Parliament.

The Bulgarian language is spoken by approximately 5,650,000 people.

"Where does this path go to?" "It doesn't go anywhere. Can't you see how still it is?"—Gutterer, Madrid.

"You only married me for my money."

"That the opposite, dear. Because I had none."—Wahne Jacob, Berlin.

W. N. U. 1901

ORANGE PEKOE BLEND

RECEIVED AT THE CHAMPION HOTEL

Farms and Farm Mortgages

In these days when so much is heard of the burden of mortgage indebtedness carried by the farmers of the Dominion, and more especially of Western Canada, the official figures contained in the bulletin recently issued by the Dominion Bureau of Statistics at Ottawa, and which are based on information compiled in the census taking of last year, are of more than passing interest. Furthermore, they are important and encouraging in that they dissipate the prevailing impression that, with but few exceptions, the farms of Western Canada are under heavy mortgage. The fact is that two out of every three farms in Canada have no mortgage debt, and while the number of mortgaged farms is naturally higher in a more recently settled country like the three prairie provinces, even in these provinces less than one-half of the farms are mortgaged. This is quite different from the oft-repeated assertion that 80 to 90 per cent. of all Western farms are mortgaged.

This census bulletin is replete with interesting and valuable information, but space will permit mention of only a few of the highlights of the figures. Of the 728,664 farms in Canada in 1931, full owners of farms numbered 586,299, part owners and part tenants 67,942, and tenants only 74,382, with 41 unclassified in the Yukon.

While the number of full owners' decreased by 28,842 in the ten years elapsing since 1921, the number of part owners and part tenants increased by 27,978 and tenants only by 18,437. In the three prairie provinces fully owned farms comprise 77,964, 201, and 175,124, Ontario second with 477,437. Of the partly owned and partly rented farms in these three provinces, 16,078,801 acres are owned and 15,773,336 acres rented.

The average size of all farms in Canada is 224.48 acres, the average size in Ontario being 118.86 acres and in Quebec 130.68 acres, but in the West the average is much larger, it being 279.19 acres in Manitoba, 400.15 acres in Alberta, and 407.85 acres in Saskatchewan.

The value of land in farms in Canada is stated to be \$2,704,700,380. Saskatchewan ranking with \$751,124,500, Ontario second with \$1,777,437,900, Alberta third with \$225,272,800. Quebec fourth with \$142,110,400, and Manitoba fifth with \$206,710,200. The value of buildings on farms in Canada totals \$1,341,483,000. Ontario coming first with \$487,000,300, Quebec second with \$230,178,200, Saskatchewan third with \$223,914,800, Alberta fourth with \$137,333,900, and Manitoba fifth with \$88,389,200.

Combining land and buildings values, Ontario is first, Saskatchewan second, Quebec third, Alberta fourth, and Manitoba fifth.

Coming back to the subject mentioned in the opening paragraph of this article, "Mortgages," it is to be noted that at the census of 1931 every farm owner in Canada was asked, for the first time, to state the total mortgage on his farm. The mortgage debt reported under this inquiry included not only the debt secured by an instrument called a "mortgage" but also debts protected by deeds of trust, judgments, or by other legal instrument that partakes of the nature of a mortgage and which has the same legal effect.

The answer to this question did not include debts covered by crop liens, nor debts secured by liens on implements, machinery or live stock. Nor did the inquiry apply to farms in the Yukon.

The tabulated results show that 244,201 farms out of the total of 728,664 farms in Canada, or 33 1/2 per cent, were mortgaged to the aggregate amount of \$677,564,106, or 24.6 per cent. of the value of all farms, and approximately 50 per cent. of the value of owned farms to which the inquiry was restricted.

Out of a total of 192,174 farms in Ontario, 71,604 reported mortgages amounting in all to \$203,753,900, or 37.29 per cent. of the total. The average mortgage in Ontario was \$2,918, and the ratio of mortgage to the value of all farms 18.85 per cent. The figures for Quebec and the Maritime Provinces are considerably lower.

Contrasting Ontario with the three prairie provinces we find: Manitoba—\$4,199 farms; 18,849, or 34.96 per cent. of the total, reporting mortgages amounting to \$60,070,100, or 33.47 per cent. of the total, ratio of mortgage to value of farms 20.81 per cent.

Saskatchewan—126,472 farms; 56,987, or 44.66 per cent. of the total, reporting mortgages amounting to \$177,620,900; average mortgage \$3,139; ratio of mortgage to value of farms 37.67 per cent.

Alberta—97,408 farms; 34,340, or 35.22 per cent. of the total, reporting mortgages amounting to \$105,000,000; average mortgage \$3,052; ratio of mortgage to value of farms 16.37 per cent.

It will be seen, therefore, that in these newer provinces the percentage of farms mortgaged is not much higher than in old settled Ontario, but that the average mortgage is much larger; and that the ratio of mortgage to the value of the farms is lower in Alberta and Saskatchewan and only slightly higher in the case of Manitoba—a truly remarkable showing for a newer country, much of it still in the pioneering stage of development, and a showing that should be full of encouragement for the future.

Children's Roll of Honor

Many Names on Record in County Hall, London, England

In one of the corridors of the County Hall, London, England, on a Roll of Honor, there are the names of nearly 400 school children who have received Royal Humane Society awards for saving, or attempting to save, persons from drowning at risk to themselves. This Roll is one of the most cherished possessions of the London Schools Swimming Association, which for 40 years has been doing splendid work among children. The ages of the brave children range from ten to 14 years.

An instrument has been devised by which the appearance of an audience can be measured as to its intensity and duration.

Troubled With Her Children Having Summer Complaint

Mrs. L. E. Montgomery, Ave. K. South, Saskatoon, writes: "I am the mother of ten children and have a great deal of trouble with them having summer complaint. For several times every summer they were subject to attacks."

"I have found Dr. Fowler's Extract of Wild Strawberry to be the most effective remedy and keep it always handy and give it immediately on the first sign of any bowel complaint."

"I thank Dr. Fowler's I no longer dread the Summer months."

Static Eliminator Proves Successful

Device Was Invented By British Post Office Engineer

Static noise, which is more annoying to one who has made up his mind to enjoy a particular programme than to have it utterly ruined by interference.

Despite the tendency of a few American writers to sluff a little at the British Broadcasting Company, there are several ways in which British listeners have the advantage of Americans on this side of the Atlantic. There is the absence of advertising, of course, and the B.B.C. can do so much more for its listeners. American networks have not yet made a practice of sending two programmes over the same wavelength, thus giving more room on the air and eliminating interference. Now they have a static eliminator which so definitely does what it claims to do, that the British Post Office engineer working in a Government research laboratory. It is guaranteed to eliminate interference from street lamps, vacuum cleaners or any other electrical apparatus.

Radio is making gigantic strides in Great Britain. In 1930, over 5,000 sets of \$150,000,000, or 1,800,000 new sets, at an average price of only \$85, compared with an average of \$125 last year.

There are 300 exhibitors at the radio exhibition in London, and this year, for the first time, the exhibitors are in London now, and listeners can tune in on some 200 stations in Europe—20 to 30 Times-Journal.

Increase in Indian Population

More Indians in Canada Now Than Ever Before

Department of Indian Affairs officials expressed the opinion there are more Indians in Canada now than when the first white man landed in this country. The 1931 census of the Dominion gives the total number of red men as 122,900, compared with the last department census total of 108,012.

United States has an Indian population of 332,397 according to the 1930 census. Canada's population is divided:

Canada, 3,565; British Columbia, 24,996; Manitoba, 15,417; Saskatchewan, 15,288; Alberta, 15,288; Quebec, 12,312; Nova Scotia, 2,191; New Brunswick, 1,685; Yukon, 1,543; Prince Edward Island, 233.

Give No Autographs

The King of England, has turned the Prince of Wales, has turned them down on autographing. George, Prince of Wales, has turned them down on autographing. The Prince of Wales, has turned them down on autographing. The Prince of Wales, has turned them down on autographing.

Persian Balm creates and preserves lovely and youthful complexion. It is a skin cream, and it is a skin cream. It is a skin cream, and it is a skin cream. It is a skin cream, and it is a skin cream.

Where Aurora Is Clearest

Returning from his comic ray expedition along the northwest shore of Hudson Bay, Dr. Arthur H. Compton, Chicago scientist, was in Winnipeg on his way to his home in Michigan. The point of greatest intensity of "north" aurora light was directly north of the city. Dr. Compton, who is a member of the Royal Society, declared: From where he was at Chesterfield Hill, the lights were to be seen only by looking directly south.

Douglas' Egyptian Liniment makes the insect biter bleed. Invincible for stings. Leaves the skin red, raw, and healthy condition. Hair comes back. No scar remains.

Canada's Wood Pulp Exports

The total quantity of wood-pulp exported from Canada in 1930 according to the figures lately issued by the Dominion Bureau of Statistics, in co-operation with the forest service department of the interior, was 760,229 tons, valued at \$39,698,978. The average value was just \$51.28 per ton.

Stranger: "I've come out here to make an honest living."

Native: "Well, there's no competition."

The poison used by some South American Indians for their arrow tips was called curat.

"The prettiest dress at the picnic" everybody said

"I must tell you about going to a big, all-day picnic," writes a woman from Ontario. "I thought it was because I had nothing left to wear and couldn't afford a new dress. The day before, the druggist showed me a wonderful new suit powder made by one of my people, made by Diamond Dyes, which I have often used in dyeing dark colors. These new Diamond Dyes, he explained, are of the highest quality as Diamond Dye, which faded and was so streaked and ugly I had a dress, left from last year, which faded and was so streaked and ugly I was ashamed to wear it. I decided to try Diamond Tints on it. The loveliest green! I got to the \$18.75! Just dissolved the powder in the water, and the dress came out the loveliest green! I got to the picnic after all and everybody said my dress was the prettiest one there, thanks to these new Diamond Tints."

Women Loggers Work At Vancouver Inlet

Are Making Good And Not Avoiding Tough Spots

Logging has always been classed as work for men—and hard-muscle, this time of day. But at Vancouver Inlet, across the Inlet from Vancouver, husky young women are engaged in this industry. And they aren't avoiding the tough spots either.

One woman recently exhibited five cords of single bolt which represented her work for the week. "It's hard work, but I like it," she admitted. "It gets easier as you go along. At first it was heart-breaking and I felt that I could never do it. But now I'm a logger, and my muscles are pretty hard now. It's healthy all right and I'd sooner be working here in the woods than somewhere down in the city. And if there are women loggers all over the world, it's a good thing for them. One woman is the mother of three children. She is only about five feet tall, and if there are women loggers all over the world, it's a good thing for them. One woman is the mother of three children. She is only about five feet tall, and if there are women loggers all over the world, it's a good thing for them.

Help For Asthma. Neglect gives asthma a great advantage. The trouble, once it has secured a foothold, fastens its grip on the bronchial passages tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily sending cases of asthma of long standing, years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

Rush Seems To Be Over

People Are No More Crowding Into United States Apparently the rush to America as a land of opportunity for people of all races has come to an end. Free land which is still available is not worth the trouble of getting to it at a premium here as they are in every other part of the world. The American economic system has arrived at a period of maturity when phenomenal growth can no longer be expected. The waste places have filled up, and industry has grown to a point considerably beyond consumption needs. Henceforth the economic development of the United States should be slower and more steady.—Washington, D.C. Post.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother's Worm Exterminator.

The Latest Invention

Mail Carrier Demonstrates Wireless Telephone Without Any Tubes

What is believed to be the first wireless telephone communication without tubes was demonstrated in a reception was accomplished recently when Walter Beane, proprietor of a roadside restaurant along the Lackawanna trail, demonstrated his invention to a group of witnesses.

Beane talked over his home-made tubeless and wireless telephone for 30 minutes over a distance of more than 100 feet. A head-set and mouth-piece was set in one building and a similar apparatus in another some distance away. Beane's set was operated on a six-volt battery, and practically all the parts were made by the inventor, who has been experimenting for some time.

Beane, who was formerly a mail carrier at Doylestown, Pennsylvania, said that the time is near when wireless, tubeless telephone systems can be installed with a central exchange operated in the same manner as at the present time. Development and establishment of this science will have an enormous operating cost, he believes.

Beane also declared that he could show science the cause of the fluctuation of the magnetic needle as a result of extensive experiments with his apparatus, he said. He said that he had been successfully terminated on March 9, this year, leading to the wireless and tubeless telephone.

A Big Undertaking

Factory Moved With No Loss Of Working Time

A complete engineering factory has been removed from London to Chippenham, 94 miles away, without the loss of a working hour. At the end of every working day for three weeks a number of the machines were dismantled and removed to the new factory. They were immediately installed and were ready for work again the following morning.

One employee, with his family and household effects, moved to Chippenham, during the time that the particular piece of machinery was moved. His work to tend being removed. Thus he finished work in London in the evening and started work in Chippenham the following morning.

Altogether, 750 tons of machinery, furniture of the families, and more than 100 people were moved.

Diet Requires Fat

Fats Constitute a Protection Against Tuberculosis

A notable fact is that diet plays a large part in the control of tuberculosis. After the German occupation of Warsaw there was an alarming increase in tuberculosis, because the Germans removed so much fat of all kinds as they could with the aim to make high explosives. When the people of Warsaw were able to return to a diet containing sufficient fat, the tuberculosis declined rapidly. It is generally accepted that a diet rich in fats constitutes a definite protection against tuberculosis. Efforts made to reduce diet in factories are also cited as a contributory cause of the decline, as well as nutrition, water supply, and personal hygiene.—Montreal Star.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Expeller is necessary. These powers act quickly and will expel worms from the system without any inconvenience to the child.

Monaco Faces Bankruptcy

Financial Position Of World's Smallest Municipality Is Serious Monaco, the world's smallest principality, which is located Monte Carlo, famous gambling center, has been hard hit by the world depression, and the consequent unemployment in the gambling industry. M. Bouillon, vice-president of the French Chamber of Deputies, has been made a member of the state for Monaco. Prince Louis himself has been conferring with the French ministry and from this it is evident that he regards the affairs of Monaco as a serious matter. As a matter of fact, the principality is threatened with bankruptcy.

Barrier—What possible excuse did you fellows have for acquitting that murderer?

Juryman—Insanity.

"Really! The whole twelve of you?"

A lipstick factory 3,500 years old has been discovered on the Danube.

IN TEARS WITH PAIN OF RHEUMATISM

"For six weeks," a woman writes, "I had rheumatism, mostly in my feet and wrists. In fact, I have been in bed ever since. I was so weak and stomach-ruined, I could not take any kind of medicine, as it made me feel sick. So a lady said I should try Kruschen Salts. I am very thankful that I have now I feel completely restored. I have not been taking anything else, so it must be Kruschen that has relieved me.—Mrs. C."

The six mineral salts of Kruschen have a direct effect upon the whole bloodstream, neutralizing uric acid, which is the recognized cause of rheumatism. They also restore the eliminating organs to proper working order, and so prevent constipation, thereby checking the further formation of uric acid and other body poisons which underlines the health.

Wilkins Is Planning Smaller Submarines

Will Likely Be Ready For Polar Trip Next Year

Sir Hubert Wilkins, the Arctic explorer who sailed for the North Pole in the submarine "Nautilus" in 1931, has been in Oslo, Norway, arranging what he has called the next expedition, says that he will use a new submarine only half the size of the "Nautilus," and carrying a crew of ten.

It is expected that the new vessel will be much easier to handle than the "Nautilus." The machinery will be so simplified that it will be less affected by the cold. The submarine, to be built either in England or Germany, will be 120 feet long. The new craft, shaped much like an airship, will have an engine developed 250 to 350 horsepower. The cost of the submarine will be about \$100,000.

Sir Hubert estimates that the building of the submarine will take about a month, and that the expedition will be ready for a start in 1933. Part of the crew will be Norwegian because of their experience in the Arctic. Sir Hubert declared that Prof. Sverdrup will take part in the expedition as scientific leader.

The object of the expedition will be not only to cross the North Pole under the ice but to reach a point between the North Pole and Alaska, where scientific observations can be made.

Trust Funds Safe

Ontario Check-Up Reports Every Thing Intact

All trust funds of the Ontario government and monies of commissions under government are intact and in good financial condition. Hon. W. H. Price, acting premier and attorney-general, announced after completion of a check-up of audits instituted following the recent disclosures in Manitoba. The funds so involved would amount to several hundred millions of dollars, in principal and yearly turn-over.

"The policy carried out by the government has been to have continuing audits of public funds," declared Col. Price. "The government is placed in the position in all departments to ask for information at all times. While some inquiries have been made, the public can be satisfied that all our trust funds, under the statutes and various commissions of the government are intact and in good shape."

A Pertinent Question

An elderly lady waited into the Bank of England and presented a parcel of War Loans. "Is this for conversion or redemption, madam?" asked the official. "Young man, I am in the Bank of England of the Bank of England?"

The first thing a man with a new automobile runs into is debt.

Try Lydia E. Pinkham's Vegetable Compound

Too "Worm-Out" to go
Another day broken... Could't say on her feet a minute longer! Lydia E. Pinkham's Vegetable Compound relieves cramps. Try it next month.

WORLD HAPPENINGS BRIEFLY TOLD

Sir Ronald Ross, noted authority on tropical diseases, is dead, aged 70.

The adventurous whaling industry may be revived to prosperity on the British Columbia coast as a result of a rise in oil prices of 30 per cent.

Rolling an automobile tire before him, Emory Cross took off from Westland, Ont., on a seven-year jaunt around the world.

The city of Tarsus, home of Saint Paul, was swept by fire. The flames destroyed 144 houses with the loss of \$100,000.

The admiralty ordered the keel to be laid on October 1 for Germany's third "pocket battleship," to be known for the present as "numbered ship C7."

For lack of funds Berlin streets have for years been so badly neglected that a number of important thoroughfares have now been closed for heavy trucks.

Mrs. W. Thrift, of Sidcup, England, whose husband was reported missing during the World War, has just been informed that he was killed near Cambrai.

A number of Alberta areas face a potato shortage because of two months of hot weather without rain this summer, according to Calgary merchants.

Sweden is motorized. Of every 100 vehicles on its roads, only 11 are horse-drawn, the annual Swedish Road Congress at Gothenburg, Sweden, was told.

Sir Henry Simon, the physician who was in attendance at the birth of Princess Elizabeth and Princess Margaret Rose, children of the Duke of York, died suddenly of a heart attack. He was 60 years old.

Big Fur Shipment

Furs To Value Of Half A Million Arrive From H.B. Region

A ton and a half of fur from the northern barren lands, principally from along the west coast of Hudson Bay, passed through The Pas, Man., recently, on the way to the markets of the world. The shipment is valued at roughly half a million dollars.

The fur-fox, mink, marten—was caught during the past year by Eskimo, Indian, and white trappers in the sub-Arctic wastes. Only the richest and most choice furs were brought down.

From Chesterfield Inlet and other points it was flown to Churchill by the three Junkers' planes of the Canadian Airways, and then loaded on to the famous muskox train that plies between the northern port and The Pas, Manitoba.

The fur will go by Canadian National Railways to the Revolution Furs Company in Canada and the Hudson Bay Company in London, England.

Epithalmy Was Fitting

Tombside Dealer (after several little suggestions): "How would just a simple 'Come Home' do for an inscription?"

The Widow: "I guess that will be all right. It was always the last place he ever thought of going."

A: "Do you know your wife is telling everyone you can't keep her in clothes?"

B: "That's nothing. I bought her a home and I can't keep her in that either."

It is so much easier to succeed after the others have quit.

"It that is art, I am a fool."
"Yes, it is art and the best kind."
—Buen Humor, Madrid.

Gift For Schenectady Historical Society

Office Chair Was Once Owned By Thomas Edison

A large old-fashioned chair owned by Thomas A. Edison, in the early days of the Edison General Electric Company, has been presented to the County Historical Society by the General Electric Company. It has witnessed in a sense the whole growth of the electrical industry in Schenectady. Amos Underwood, production manager of the turbine department at the Schenectady works, felt heir to it on the retirement of Langdon Gibson, former production manager of the Schenectady works. Gibson obtained the chair early in his career with the company and carried it with him from office to office.

Believe It Or Not

Earthworms In Australia Attain Length Of Ten Feet

An earthworm, native to southern Australia, attains extreme lengths of ten or twelve feet and diameters of three-fourths of an inch, although the average specimen is only three or four feet long. It belongs to the same species as our common earthworms. The progress of these gigantic worms through the soil is attended by gurgling and sucking sounds clearly audible to persons walking on the surface. Their eggs resemble large olives. Related species which attain a length of several feet are found in parts of South America, Java and other sections of the world.

(By Ruth Rogers)

A WRAP-AROUND MODEL FOR YOU IF YOU'RE A WEE BIT HEAVY

Still another smart and flattering style for matrons.

And it's cut on the wrap-over lines so becoming and liked. There's a slendering bias line at the front and at the back that reduces the hip bulk.

The shawl collar is very becoming. And don't you like the shaped sleeve cuffs?

So many charming materials can be used for this slim-line model.

The original was rhum-brown wool crepe with white pique trim.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

CANADIAN DELEGATES GO TO GENEVA

Hon. C. H. Chubb, Secretary of State for Canada (right) has sailed for Geneva to head the Canadian delegation to the meetings of the assembly of the League of Nations convening on September 26. He is accompanied by Madame Charles Fremont (left), who is one of the three delegates representing this Dominion.

A Mark Of Distinction

Ability To Keep Ears Open And Mouth Shut

A man seeking a job advertises in this way in a New York newspaper: "I have just begun brains to keep my mouth shut, my ears open and present a good executive appearance. Do you need a front for your business?"

We suspect the gentleman is not being quite frank with his public. Probably he is a very shrewd, capable person who thinks an air of humility, of self-deprecation, an original line of approach, may achieve the results likely to be denied a more orthodox recital of his good qualities.

The fact is, of course, that ability to keep the mouth shut and the ears open is a mark of considerable distinction and a virtue commonly denied to a great many persons. The "front" of "good executive appearance" and "nothing to back it up" is much more apt to keep his mouth open and his ears shut. If he knows enough to reverse the process he is more than just a front—Ottawa Journal.

Treasures Of Harwood House

Henry Lascelles, Original Owner, Was West Indian Millionaire

Harwood House, near Leeds, England, where the King and Queen spent a week-end in August, with the Princess Royal and Lord Harwood, was built about 150 years ago at a cost of £120,000. It took 12 years to erect. The State apartments command a magnificent view of beautiful Wharfedale, and contain some wonderful ceilings, plaques and paintings, as well as some of the finest specimens of Chippendale furniture in the world. Henry Lascelles, the son of the Harwood family, was a West Indian millionaire, and in Harwood House there are nearly 80 massive mahogany doors made from wood grown on the West Indian estates.

Recipes For This Week

(By Betty Barclay)

ORANGE AMBROSIA DESSERT

(Serves 4-6)

This is a modern version, adapted to salad serving, of the ambrosia, which was Grandmother's favorite company dessert. Ambrosia, by the way, was the food served the Greek gods in their feasts on Mount Olympus. While this ambrosial and delectable combination of orange cocoanut will not confer the immortality given by the ambrosia of the gods, it is a dessert par excellence for better health.

6 oranges.
1 cup strained honey.
1 can cocoanut.
Peel oranges, removing skin down to juicy pulp. Cut in slices and cut slices in half. Dip each piece of orange in honey which is placed in a shallow dish, then in cocoanut. Arrange on crisp lettuce leaves. Serve with whipped cream to which a little mayonnaise has been added.

COOKED SALAD DRESSING

1 cup evaporated milk.
1/2 cup water.
1 teaspoon dry mustard.
1/2 teaspoon salt.
1 tablespoon granulated sugar.
2 tablespoons flour.
Dash of cayenne.
2 egg yolks.
2 tablespoons butter.
1/2 cup vinegar.
Blend evaporated milk with water and bring to scalding point in a double boiler. Thoroughly mix dry ingredients. Add slightly beaten egg yolks gradually and blend carefully. Pour hot milk slowly over egg mixture stirring constantly. Return to double boiler. Add butter and cook until mixture thickens, stirring constantly. Heat vinegar, and add slowly. Blend thoroughly. Strain and cool. Makes 1 1/2 cups.

SUNDAY SCHOOL LESSON

OCTOBER 2

CHRISTIAN STANDARDS OF LIFE THE CHRISTIAN DEVOTIONAL LIFE

Golden Text: "Grow in the grace and knowledge of our Lord and Saviour Jesus Christ."—2 Peter 3:18.
Lesson: Psalms 111-13; 119:1-16; Daniel 6:10; Matthew 6:15; Timothy 3:17.

Devotional Reading: Psalm 122.

Explanations and Comments

Prayer in the Christian's Devotional Life. Matthew 6:15-18.—It was the appearance of righteousness that the hypocrites coveted, not the righteousness itself, and Jesus bade His disciples not to pray as they do—standing in conspicuous places to be seen of men. They have received their reward; and Jesus, they have been seen of men and this was what they desired; they have no claim whatever to any further reward.

"After this manner therefore pray ye: thus the Lord's Prayer is introduced in Matthew's Gospel. It does not mean that the prayer which follows is the only one to be offered. Rather does it counsel us to let our prayers be unostentatious like this Model Prayer, to let them deal with divine and human interests, with spiritual and physical wants. It reminds us of many things which we are prone to forget when we pray with God. Too many which we pray as petition for personal needs rather than whereas this prayer, for others as well as for self, and is concerned chiefly with God's interests and our spiritual needs.

The prayer naturally divides into two parts: first, the things of God, second, the things of man. "Our Father" is the address with which the prayer begins. God is powerful—V.G.B.; prayer begins. God is never so addressed in the Old Testament. Jesus Himself always addressed Him as "Father."

"Prayer is communion with God, not as the Supreme Governor who rules the universe, but as Father who advises, strengthens, and forgives His children in answer to their cry of need."—Kierkegaard.

Our Father, who art in heaven. "This is more, shall I say, than postal address. Our Father is in the heavens, but our Father, who loves the universe."—J. D. Jones.

Hallowed be Thy name. The name of God stands for God Himself. His revealed name. Hallowed means set apart as holy, revered, and worshipped. In this petition we pray that we may honor the Father in thought and life.

There are many ways in which we may fail to hallow God's name. Swearing is profaning God. Irreverent worship is profaning Him. Harboring unworthy ideas of His Nature, thinking Him cruel, unkind, is profaning Him. We need praise the name of God more than words can.

Thy Kingdom come. Let Thy sovereignty be realized, and let it be when the words of the next petition become true, when every one's will is in as perfect accord with God's will as was the will of Jesus.

Veteran Doctor Honored

Kansas People Pay Tribute To Traditions He Represented

When nearly one thousand persons assembled at Mulvina, Kansas, recently to honor the veteran physician who had ushered them into the world, they paid tribute not only to an individual but also to the traditions he represented.

The old-fashioned country physician was one of the heroes of his profession. Science names now dignify the name of doctor, but the old-fashioned, shrewd psychology he administered along with his pills and powders. Under conditions that would be considered impossible today, he performed many feats of surgery. No mud was too deep and no blizzard was too blinding to keep him from answering a call to duty. The midnight beat of hoofs along the pike usually meant that he had sacrificed another night's rest in order to relieve some one's suffering.

The old-time country doctor is passing. As with the circuit rider and the stagecoach, his type will eventually become extinct. But the recent assemblage in Kansas shows that modern medicine can well afford to honor the traditions of courage and duty that thousands of country doctors left behind them.—New York Evening Post.

Education Investment

Money Spent In This Way Is Never Wasted

The nation should spend not less money, but more, on education. An elementary school child costs the public \$65 a year, a secondary school about \$100. Who so foolish as to regard these moderate sums as excessive, or too burdensome for the nation to carry? Every penny spent on education is an investment which brings a hundredfold return. There is no asset comparable to a generation sound in mind, healthy in body, and adequately equipped to fight the battles of life.—London Daily Herald.

A drummajor bears the same relation to a camel as a race horse does to a draft horse.

DEFINITE HELP FOR DWELLERS IN APARTMENTS

Odorous waste found to cook fish, cauliflower and cabbage

CANAPAR IS A PRODUCT OF HAMILTON FIRM

Lives there's waste in apartment, duplex or home, who has not at some time or other reluctantly forsaken fish, cabbage, and cauliflower because of the odors they give off when being cooked? Or who has not suffered from other people's odors by who cooked these foods regularly?

Canapar entirely does away with this annoyance. More than that, it greatly improves flavor and food value. Cooking in Canapar parallels the famous French method of steaming and confining food and is favorable to the closed casserole.

Canapar comes in large sheets, in a handy package. When boiling vegetables you simply wet the sheet of Canapar and make a bag similar to a pudding bag. If you are steaming them you line your steamer with Canapar, arrange food and seasonings in the bag, cover the top of Canapar to prevent steam from dripping back.

Baked or steamed fish is particularly delicious done this way. No fatty oil in the kitchen. No greasy residue. When roasting meat, line the pan with Canapar. It prevents fat from dripping from burning, and eliminates scorching of the pan afterward.

Canapar saves fuel. You can cook three vegetables simultaneously in the same bag. It is made of a special material of flax. And it is very economical. It costs less than one cent a sheet. It is on the towel rack to dry. Use it over and over again.

Canapar is as Canapar for a dish cloth—it is as easy and satisfactory and saves time. It is a new idea in the good use of it. You can pierce the sheet with a needle and thread, and use it for cooking food. Canapar is the maker of PARASOL the famous heavy wash paper in the Green Bay, Wis. Special Offer.

Most grocers, druggists and department stores sell Canapar. Write for a coupon and we'll give you a new and unique book entitled "Canapar" containing one hundred recipes as a bonus for your trouble.

Applied Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25c for which please send me one complete package of CANAPAR Cookery Parchment and your 100 recipe book for "Left-overs."

Altitude Records

Two British Pilots Make Claims To New High Records

British pilots, flying at opposite ends of the Empire, have advanced claims to two new aviation altitude records.

Captain Cyril Unwin claimed a new record for land planes, with a flight to 45,000 feet at Bristol. The official record is 42,154.9 feet, held by Lieutenant Apollo Cooch, United States Navy.

At Port Darwin, Australia, an amphibian attached to the British navy, the "Albatross," was reported as claiming a new altitude record for that type of ship, with a flight to 21,000 feet.

It was also claimed that a balloon released from the "Albatross" (without passengers) reached a height of 70,000 feet, or more than 13 miles. This was set up as a record. There are no official records for passenger balloons. Professor Augustus Piccard rose nearly 11 miles over Italy in his latest stratospheric ascension.

Many Veterans Employed

England has completed arrangements for the retention permanently in the government employ of more than 13,000 ex-service clerks, who had been given temporary employment. They will be engaged on a pensionable basis. In addition more than 2,000 temporary women clerks and stenographers are to be given pensionable employment.

Rice was brought to this country by a sea captain, returning from a voyage to Madagascar, in 1694.

"That is my own portrait, painted by myself."

"But how could you paint it with one hand on your stick and a pipe in the other hand?"—Lustige Illustrer, Berlin.

MENTIONED FOR PROMINENT POST

EARLY STUDY OF ARMS CUT IS PROMISED

Geneva, Switzerland.—The League of Nations council meeting was confronted with a veritable kaleidoscope of international developments, which were touched off by Russia when her point for speedy consideration of substantial arms reduction plans.

This development came in the conference bureau, a sort of steering committee for the general conference, which is expected to resume soon. Maxime Litvinov, the Russian delegate, proposed the bureau take up the Russian proposal of the United States for a one-third cut.

The two guest provinces before the council are the German demands for equality of armaments on a threat of withdrawal from the disarmament conference, and the filing of the report on the far east prepared by Lord Lytton and his commissioners.

Baron Konstantin von Neurath, the German foreign minister, expressed Germany's demand for equality, and there was evidence league statesmen proposed to concentrate immediately on the German problem.

The Japanese were apparently deeply interested in the two reports widely circulated here: first, that France had changed its attitude toward Japan and now will be found much more friendly to Tokyo's position, and second, that Ramon de Valera, the Irish Free State president, who will preside over the council, will have little sympathy with Japanese views.

Observations Will Be Given Hearing

Ex-Service Men May Submit Memorandum To Council, It Is Said

Ottawa, Ont.—Opportunity to observations of ex-service men who desire to offer observations relating to the administration of the pension act will be given by the Rinfret committee, it was decided when that body sat "in camera."

The statement said: "It is requested that such observations should take the form of a memorandum in writing which will be placed before the committee for its consideration, if received, by the secretary, Daily Building, Ottawa, before the end of September."

Manitoba Marketing Bonds

Syndicate Is Handling The Four Million Dollar Issue

Winnipeg, Man.—Manitoba's new \$4,000,000 bond issue will be placed on the market at \$96.75 and will yield a little better than 5.50 per cent. interest. Hon. E. A. McPherson, provincial treasurer, announced. A syndicate of eight banking and investment houses is handling the issue. All arrangements for the sale of the bonds completed for offering the bonds to the public, Mr. McPherson said. They will bear interest at the rate of five and one-half per cent. in their face value, and will mature in 23 years. Principal and interest are payable in Canadian funds.

Chinese Won Case

Legat Of Orient Was Convincing For Toronto Magistrate

Toronto, Ont.—Unanswerable logic of the Orient won a case for Lee Hi in health court. Lee was accused of dumping rubbish over his back fence on a piece of city property.

Arguing his own case Lee reasoned thus: The grass on the lot was nearly a foot high but where the rubbish lay there was no grass at all. Therefore, it had lain on the ground for a much longer period than two weeks. Lee moved in only one week ago.

Magistrate Arthur Tucker, speechless, dismissed the case with a wave of the hand.

No HoJays For Commons

Ottawa, Ont.—The House of Commons will sit on Thanksgiving Day, Monday, October 10. Inquiry made by a highly influential official circles elicited the definite information that the Commons would proceed with the debate on the address on that day. Parliament opens the preceding Thursday.

Approve Distress Relief Fund

Rome, Italy.—The Italian conference has approved in principle a draft convention recommending among other steps the creation of a stabilization fund of \$75,000,000 to finance to relieve distress in central and southeastern Europe.

W. N. U., 1961

Ask Aid For Bay Route

Regina Men Want Traffic Department To Solicit Shipments

Ottawa, Ont.—Establishment of an active traffic department by the government which would solicit shipments for the Hudson Bay Railway and the northern ocean port of Churchill has been urged on Hon. R. J. Mackenzie, Minister of Railways and Canals. This step was advocated by C. B. McKee, past president of the Regina Board of Trade, and George A. Ewart, present commissioner of the board.

"Mr. Manion received us very cordially and courteously," said Mr. McKee. They were assured the matter would be given consideration.

Both Regina men advanced the opinion the government, to crown its work in providing an outlet to the sea for the prairie provinces, should have an active traffic department in order that importers may route as large a portion of their goods as possible via the new trade channel.

"Through the Hudson Bay Railway, we can reach the markets of the United Kingdom," said Mr. McKee. "When the insurance rates come down to a more suitable level, a material saving will be effected in export costs," he added.

Some 2,500,000 bushels of wheat would be exported to Great Britain this season over the northern route, said Mr. McKee stated the first shipment of 200,000 bushels had been carried at a saving of approximately a cent a bushel.

Indians Encamped On Ancient Reserve

Take Possession Of Land Near Selkirk, Manitoba

Winnipeg, Man.—Led by a militant chief a band of 35 families of the Saulteaux Indian tribe has defied orders of authorities and encamped on the reserve which they claim is their ancient reserve, 12 miles north of Selkirk, Man. The Indians claim the move marks the climax of a dispute of 20 years' standing. In 1907 the band surrendered the reserve at St. Peter's and under the terms of an agreement were to get \$40 per head and a reserve at the River, Chief Grey Eyes, head of the band, claims his people never received \$40 and have been unable to make a living on the Fisher River reserve.

Royal Canadian Mounted Police officer removed 35 families from their old stamping grounds. The natives, who had been trespassing on private hay lands since last July, camped along the road allowance.

Britain Faces Milk Strike

Better Prices For Product Is Asked By Farmers

London, England.—British, Tuesday night, September 29, faced a country-wide hold-up of milk supplies as a result of farmers' decision to inaugurate a "milk strike" October 1, following a dispute over negotiations between their representatives and representatives of the milk-distributing organizations over contract for the forthcoming year.

A statement issued by the National Farmers' Union says the decision of the milk distributors to refuse farmers better prices for their product during the coming year renders inevitable a hold-up in the supply. Unless a last-minute step taken, the "strike" will go into effect at the end of this month.

All Comes Gold

Canada From Mines

No Swindle Here Such As Reported From Washington

Ottawa, Ont.—Precisely all the gold which flows into the mint here comes from the mines, it was stated at the department of finance.

Despatches from Washington state that action has been taken there to keep swindlers from buying gold and jewelry at bargain prices on the pretence that they were the metal for the federal government. Later this gold is melted down and taken to the mint, there to be exchanged for currency.

Apparently no such swindle has gained any headway in Canada.

Judge Of Supreme Court

Ottawa, Ont.—Mr. Justice Oswald S. Crockett, of the King's Bench Division of the Supreme Court of New Brunswick, has been appointed judge of the Supreme Court of Canada. He fills the vacancy caused by the death last fall of Mr. Justice P. L. Neves, a former member of the Nova Scotia bar.

Bishop Owen of Niagara and Dean Carls of Montreal (left and right respectively), are two of the prominent Church of England dignitaries who are mentioned most frequently for the post of Bishop of Toronto. The election takes place on October 24th when a successor to Archbishop Sweeney will be chosen by synod delegates.

HOME SECRETARY EXPLAINS ACTION ON TRADE PACTS

London, England.—Trade agreement reached at the Ottawa Imperial Economic Conference by the United Kingdom and the Dominions were condemned in a resolution adopted by the executive of the National Liberal Federation.

The resolution urges the government, parliament and all electors to "seriously consider the dangers and vicious principles inserted in the Ottawa agreements and oppose them by every means in their power." However, no call is made on Liberal ministers to resign from the National government.

Mr. Herbert Morrison, home secretary, under-secretary for India, attended the meeting. He and the Marquis of Lothian, the Ottawa proposals were discussed by the cabinet on August 28 immediately after the return of the League of Nations delegates. Two days later he had sent to his Liberal colleagues in the government a memorandum in which "the situation which had arisen was reviewed and a definite course of action suggested."

Plan Trip To Arctic

French Explorers May Undertake Journey Across Canada By Air

Montreal, Que.—French explorers who made expeditions into Africa and into Central Asia by helicopter automobiles, may soon undertake a journey across Canada into the Arctic circle.

Jean Allouche, Parisian journalist, who described the previous expeditions, is in Ottawa to discuss the possibilities with General J. H. McRie, commissioner of the Royal Canadian Mounted Police, and to map out for himself an advance trip into the north country. The journalist reached here from France by the Canadian "Aurora."

Allouche will proceed to Vancouver and thence to northern ports of the Pacific. He will visit outposts of the Royal Canadian Mounted Police and missions of the Oblate Fathers in the land of Eskimos. From Dawson City, which he knows well and has visited before, he will travel by aeroplane to Adak.

CANADIAN BAR OFFICERS AT BANFF

The executives of the Canadian Bar Association and guests on the terrace of the Banff Springs Hotel. The convention visited the famous Rocky Mountain resort as luncheon guests of Rt. Hon. R. B. Bennett, Prime Minister of Canada. Left to right are, (standing): G. H. Barr, K.C., Regina; Louis St. Laurent, K.C., Quebec, past president; E. H. Coleman, K.C., Winnipeg, secretary-treasurer; D. H. Laird, K.C., Winnipeg; R. K. Williams, K.C., Winnipeg; Robert Taschereau, K.C., M.L.A., Quebec, honorary secretary; J. E. A. Macdonald, K.C., Calgary, Alberta, (sitting, right); Maître Olivier Jahn, Paris, official French delegate; Mrs. W. F. MacCracken, Washington, D.C.; Hon. N. W. Rowell, P.C., K.C., Toronto, president of the Association; Madame Jahn, Mrs. A. L. Smith, Calgary; Hon. W. F. MacCracken, Washington, D.C., official American delegate; and A. H. MacCracken, K.C., Vancouver, B.C.—Canadian Pacific Railway Photo.

Hutchinson Says Route Was Safest Possible

Wrecking Of Trans-Atlantic Plane Just Bad Luck

Aberdeen, Scotland.—The Hutchinson family, who with their crew of four were rescued from the bleak Greenland coast after wrecking their trans-Atlantic plane recently, landed at Erribol, Scotland, from the steam trawler, "Lord Talbot."

George Hutchinson, his wife and two small children were all well, although the two girls appeared to be tired. They are en route back to New York.

If our radio had a little more range we would have been able to pick up our bearings and would have been all right," Hutchinson said describing the accident.

Hutchinson said he wanted it understood that the adventure of his "flying family" was not a "stunt flight."

"The children have always been with us in our flying," he said. "Our route was the safest possible and we were only 14 miles from safety when the accident happened. It was just a bit of bad luck."

Saskatchewan May Have London Agent

Premier Anderson Intimated Appointment Was Being Considered

Saskatoon, Sask.—Speaking at a meeting here of the Kiwanis Club, Premier Anderson intimated his government was considering the appointment of a Saskatchewan agent in London, England.

He said one of the duties of such an official would be to see that all merchandise leaving Great Britain for the prairies was routed via Churchill and Hudson Bay. In addition, the agent would develop trade for Saskatchewan in British markets. He also declared the people of Saskatchewan, by insisting that goods be brought in by the Bay could greatly assist in developing the route.

Japan May Leave League

New York.—Hiroshi Satō, arriving in this country to be charge d'affaires at the Japanese embassy during Ambassador Katsuki Debauchi's leave of absence, declared his country "would not hesitate a minute to withdraw from the League of Nations if it finds itself 'compelled' to by the report compiled by the commission headed by Lord Lytton of the United Kingdom."

Court Rules Firm Bankrupt Investment Firm Of Machinery Sharpe Out Of Business

Winnipeg, Man.—The second firm with which J. A. Machray, former partner of the University of Manitoba, chancellor of Church of England and prominent Winnipeg lawyer was associated, has passed out of existence. The investment firm of Machinery and Sharpe was declared bankrupt and last Saturday the legal firm of Machinery, Sharpe, Parker, Crawley and Richardson, was dissolved.

Evidence revealed at the hearing of the bankruptcy petition is only a "small part of the tale that yet will have to be told," Mr. Justice Macdonald declared in granting the university's petition.

The hearing, which Mr. Justice Macdonald said had revealed "alarming disclosures," disclosed that funds of the company were kept in a "slipshod manner," that all monies handled by the firm were kept in a single bank account, that the company books were audited by an accountant from the Manitoba government, a comptroller general's office, also engaged by Machinery and Sharpe, that the firm had assets of only \$600, and that all accounts were not in order though some trust accounts had not even been totalled in the last 16 or 17 years.

Lawyer Drowned At Coast

E. C. Saville Lost Life When Boat Was Upset

Salmon Arm, B.C.—Eustace Claude Saville, barrister and solicitor here for more than 20 years, was drowned while fishing off the Adams River, 35 miles from here on Shuswap Lake. Saville was in a boat with Major H. W. Roberts when it overturned. Another party went to their aid, rescuing Major Roberts, but Saville had evidently been drawn under by the strong current.

PREMIER ISSUES SUMMARY OF RAILWAY PROBE

Ottawa, Ont.—Complete revolution in control and regulation of all railways as well as in the control and management of the National system is directly implied by the official abstract of the report of the transportation commission issued by Prime Minister Bennett.

Three recommendations open an unbridgeable chasm between railway administration in the past and railway administration in the future. They are:

1.—Abolition of the present National Railway directorate and the substitution as the supreme body of control of a board of three trustees.

2.—Creation of a joint committee composed of National Railway trustees and Canadian Pacific directors to formulate and put into operation joint measures to remove duplication, to prevent unnecessary competition.

3.—Creation of a super-control board, called an arbitral board, of three members to decide matters upon which the joint committee cannot agree.

This board, within a defined, but wide, field of jurisdiction, is to have authority over both railways as well as over the board of railway commissioners. From a decision of the arbitral board there is to be, really, no appeal.

These are the major recommendations, but there are others:

1.—There is a thinly-veiled reference to the "inelasticity" of freight rates. Being one of the important contributing factors in the present problem. This can have reference only to the Crown's Net Pass rates, enforced on the railways by statute in 1925. The complete report, when issued, seems likely to carry a recommendation that statutory or inelastic control of railways be reconsidered.

2.—There is an intimation that an official plan for the National Railways will be found in the official text of the report, which indicates that the National's capital structure may be up for revision.

In the negative sense, the report is important because it strongly condemns any scheme of railway amalgamation or of the leasing of the National to the Canadian Pacific.

Accompanying the abstract of the report is a brief statement from Mr. Bennett, in which he declares that legislation giving effect to the recommendations which the government decides are in the public interest will be introduced shortly after parliament opens in October.

REVIEW SHOWS CANADA IN GOOD EXPORT POSITION

Ottawa, Ont.—The present crop year commenced with Canada occupying a favorable export position—undoubtedly the best position held by the Dominion since 1925. The Canadian position at the present time is largely due to two main factors, namely, lack of foreign competition and price levels on a sound export basis. So says the monthly review of the wheat situation, issued by the Dominion Bureau of Statistics.

In regard to the export situation in Canada, it is stated that:

"The large wheat crop combined with a good export demand for Canadian wheat is stimulating the movement of grain in every position. During the past seven weeks the movement of wheat internally and externally has been about a decided improvement over the movement of the same weeks last year. Deliveries to country elevators, the movement from country elevators to terminal markets, the movement from the Great Lakes and finally the export movement, are all above last year."

In regard to the interest in the bulk movement of Canadian wheat into export trade and into export position. For the seven weeks ending September 1925, 28 per cent of the total wheat was shipped by water from Port Arthur and Fort William compared with 25 million bushels for the corresponding weeks last year."

Prince Opens British Trade Exhibition

Was Warmly Welcomed On Arrival In Danish Capital

Copenhagen, Denmark.—Eight thousand Danish accorded an enthusiastic reception to the Prince of Wales when he arrived to open the British trade exhibition.

The prince came by aeroplane from England, setting foot on German soil for the first time since the World War during a stopover at Hamburg. He reached Kastrup airport, near here, at 6:25 p.m. A fleet of Danish military and naval aircraft flew over the field.

It has been 20 years since a visit of a Danish prince to the British Isles. His distant cousin, Crown Prince Frederik, greeted him on his arrival. The Prince of Wales's grandmother was the Danish Princess Alexandra. Other members of the royal family joined in welcoming him.

Further Pay Cut For C.P.R. Officials

President Hopes Reduction Will Not Be For Long

Montreal, Que.—On October 1 salary reductions will be effected among the higher officials of the Canadian Pacific Railway. According to an official statement the president, directors and members of the executive committee will receive a 10 per cent. reduction. Salaries of general, district, divisional and departmental officials will be lowered 10 per cent.

Hope was expressed by E. W. Beatty, president of the railway, that it will not be necessary to continue the reduced rate for too long a period, and that the former salary schedule will eventually be restored.

Three Firms Are Losers

Thieves Carry Away Safe Containing Two Thousand Dollars

Winnipeg, Man.—Cracksmen broke into the office of the Corona Lumber Company at Sturtevant, near here and carried away a safe containing \$2,000. The cash belonged to the Ogilvie Milling Company, the Manitoba Wheat Pool and Western Canadian Elevator. Limited. Books containing the details of the amount belonging to each firm were in the safe. The burglars escaped in a stolen truck.

Crew All Officers

Victoria, B.C.—Using a full deck complement of certified officers, the first ship so manned to leave the port of Glasgow, the British steamer "Clan Macdonald," Capt. L. Macdonald, is in "Victoria" after a passage of thirty days from the Clyde.

Clan's Record

Kiel, Germany.—Lola Scholcher claimed the world's record for a woman's parachute jump, reporting she had dropped 7,300 metres (about 22,000 feet) in 23 minutes.

New Tree-Planting Policy

Announcement of a new tree-planting policy for Alberta, looking towards reforestation, is announced by Hon. R. G. Reid, provincial minister of Lands and Mines. Following assumption of control of the province's natural resources, and having in mind the influence of tree growth on soil drifting and moisture concentrations as well as the enhancement of the natural beauty of the countryside, the government believed it to be a duty to establish some foundation for reforestation work in the future.

Commencing next spring, free distribution will be made from stocks already established at Oliver provincial farm near Edmonton, of young White Spruce to farmers in the parklands belt who are making an effort to preserve the bluffs already on their farms. Spruce growth has been found to be successful in these bluffs. For the time being this will be the extent of the operation of the policy, though it will be expanded to include other important features of reforestation as soon as found practical and advisable.

There will be no conflict with the work of the federal forestry stations in the west, the province having in mind the larger object of re-establishment of coniferous growth in the parkland and prairie sections. With respect to the prairie section, the policy for the time will be confined to assisting municipalities and farmers to grow spruce and pine in wood lots already established and around hedges which are more or less permanent or holiday centres. Trees for this purpose will be supplied for cost of freight only.

A feature of the policy at present in mind is that there will be very little financial outlay, since the establishment of foundation stocks, which has already been done at Oliver to a considerable extent, is carried on with land available at the Oliver Institute, and with labor of patients, providing a very satisfactory form of treatment also for the patients. There are now at Oliver some 300,000 Lodge Pole Pine in seed beds, and some 300,000 Spruce seedlings. More seed beds to be added next spring, and provide more than a million more trees.

The government is also doing something at Oliver in the way of experimenting with other tree growth, and already some 28 varieties in all are being tried out there, including those native to the province.

K. R. McLean, R.O., of McLean & Anderson, Sight Specialist of 224-8th Ave West, Calgary, will make his monthly visit to Champion, Friday, Sept. 30th, at the Drug Store.
